

K10 Annual Apprenticeship Awards, 2022

Here at K10, we like to ensure that all of our apprentices' hard work and dedication does not go unnoticed.

By way of appreciation, the 2022 K10 Apprenticeship Awards recognises the apprentices that have performed to the very highest standards on site, or at their studies.

We would like to congratulate all of the winners and the contractors that have supported them, for all of their effort and application over the last 12 months.

Tamem Noorahmady – Best 1st Year Trade Apprentices

"First of all, I would like to thank Brown & Carroll for the opportunity they have given to me. It has been a blast to work with the team as they have provided the resources and guidance to support my improvement of skills to a professional level. The apprenticeship has allowed me to focus on what I have always enjoyed, it has given me a chance to be the best that I can be and I can only hope to improve from this point onwards. This wouldn't have been possible without K10 so I'd just like to say thank you for giving me the chance to demonstrate myself with a great company."

Tamem Noorahmady,
Carpentry Apprentice

"Tamem has fitted in very well as a team member and an individual worker on site. He has a great attitude, a shared work ethic that we possess on site, and is very aware of his duties that come with his role, this has been maintained throughout the year he has been with us. As an individual, he is a very approachable lad which has also been quoted from other team members and the entire site team enjoys working alongside him.

Tamem is confident in approaching the qualified Carpenters when needing advice or guidance and listens well. His ability of reading drawings and listing items required for the works at his age are at a very high standard and show his clear understanding of the trade. It is nice to have him onboard and if he continues in the same manner, Tamem will become a very skilful Joiner / Carpenter"

Gerald Harris,
Project Manager, Brown and Carroll

Jordan Streete – Best 2nd Year Trade Apprentice

"During this apprenticeship I have learned a lot working with Carey London. When I started I didn't have a clue what I was getting myself into but with the help of people on site now my knowledge has expanded and I have noticed this because when people see me on site they don't believe I'm an apprentice. I'm grateful for being a part of this apprenticeship with K10 because the journey hasn't always been smooth but they have tried their best to get me the answers that I need."

Jordan Streete,
Groundworks Apprentice

"Since Jordan started with us, we have invested a lot of time and training into him which has given him the confidence to carry out his role and not be afraid to ask questions so he can further himself. I have found Jordan to be hard working and a quick learner. We at Carey London Ltd are delighted that Jordan has won this award, as it is a just reward for the hard work he has put in. We look forward to Jordan completing his apprenticeship and coming to join Carey London full time."

Eamonn Carty,
H & S Director, Carey London Ltd

Mohammed Wahid – Best 1st Year Technical Apprentice

"I cannot thank the Gilbert-Ash site team enough for the constant support and guidance they have given me throughout the apprenticeship. They have made me feel welcome as a valued member of the team from the day I first set foot on site.

The Gilbert-Ash team has taught me how to get out of my comfort zone and helped me build up my confidence in the working environment."

Mohammed Wahid,
Site Management Apprentice

"Wahid has become a valued member of the Gilbert-Ash site management team here at 3 Mills Studios. He has shown a willingness to learn and be proactive in the day to day activities on site, taking on responsibilities such as publishing progress photos and diaries to our integrated management system, attending client led meetings (taking his own minutes for reference). I feel this award by K10 is recognition of the hard work that Wahid has put in, and hope that his progress in the future continues in the same vein."

Gordon Holmes,
Site Manager, Gilbert-Ash

Shahed Ahemd – Best 2nd Year Technical Apprentice

"I am an Apprentice Site Manager at BAM construction. I joined the team in October 2021. I was scared at first as I didn't have enough experience and knowledge, but as time grew I slowly started building confidence and learning new things. The team here is amazing, I can't thank them enough for the amount of support they have given me. I have a lot more to learn and to give to the company."

Shahed Ahemd,
Site Management Apprentice

"Shahed really stepped up at Central House and managed the Raised access flooring contractor from start to finish. Shahed also leads contractor meetings which is a big step for an apprentice. Well done."

Jason Willis,
Project Manager, BAM Construction Ltd

David Jones - Best Overall Apprentice

"I've had a great experience working with and learning from RB Emersons on two of their projects. I have been working with Robert Thorne at Seasprite, Ealing and both Rob and David Purser at Lampton Rd, Hounslow. I have a great relationship with them and they are always supportive in allowing me to work independently and also provide guidance when needed.

Thanks to K10 and RB Emersons for making this possible and guiding me towards the end of my apprenticeship. I am looking forward to becoming a fully qualified Electrician in the future."

David Jones,
Electrician Apprentice

"Congratulations Dave on your well-deserved award. My colleagues and myself have been impressed by your attitude in the workplace and your development in the trade since you have been working with RB Emersons. It is not often that you find a young apprentice who is keen to learn, reliable, and knowledgeable in what they do and with David, we have all noticed this.

Keep up the good work and best of luck from the RB Emersons team."

David Purser,
Project Manager, RB Emersons

Pearl Atiemoh – Best College Performer

"Massive thanks to the MJL team on and outside UAL, for the support since my first day. And thank you, K10 for nominating me for the award."

Pearl Atiemoh,
Electrician Apprentice

"When I first met her she came across as confident, knowing what she wants. We put her on UAL, which is a big job, and she's held her own. She will boss the boys about and complete any task given snag-free. She's truly exceeded expectations, absolutely brilliant."

Lee Bird,
Electrical Compliance Manager, MJL

"Pearl has been working on the UAL Stratford Project with MJL Electrical now for a year and half.

In this time Pearl has covered many aspects of the electrical install from containment to wiring and is now working alongside our testing team.

She has grabbed every challenge put in front of her by the horns and has proven to all that she is more than capable of being a key member of the team.

I look forward to watching Pearl's progression as we enter the final stages of the project and seeing her through her apprenticeship and then onto bigger and better things, the world is her oyster."

Brenton Dyke,
Electrical Site Manager, MJL

Gordon Holmes - Mentor of the Year

"Gordon's been a fantastic manager to me, I really appreciate how he is always there if I need help. Gordon is always introducing me to clients and ensures I am involved and a part of the team at all times. Gordon has taught me many things about the construction industry and skills such as how to overcome my fear of heights, now I can freely climb up and down scaffolding."

Mohammed Wahid
Site Management Apprentice

"It's been a pleasure helping to bring through the next generation of industry workers, to support the local community in this way at the same time as watching the skills of the apprentices progress has been fantastic."

Gordon Holmes,
Site Manager, Gilbert-Ash
